

DATA ANALYST VACANCY

Job Title: Data Analyst
Location: Johannesburg
Closing Date: On-going recruitment

Company Overview:

The number one challenge for business decision-makers is the lack of business competency to deal with data that is messy, diverse, or large. At DBA Architect we meet data challenges by implementing master data management systems that are designed to fulfil several enterprise needs, but overall our goal is to bring data harmony to all types of ecosystems. Our teams of highly skilled DBA Architects are able to create data-driven platforms that empower employees to find the correct data for better, faster business decisions.

We are currently looking for Data Analysts who is self-motivated and has strong problem solving and lateral thinking abilities to join our team. Applicants should have knowledge of databases and the appropriate software and languages. We work primarily with Transactional SQL queries and Database engines, but we are looking to move more into the open-source space so any experience with MySQL or PostgreSQL is a welcome addition.

Responsibilities & Duties:

- Monitoring system performance and identifying problems that arise.
- Responding in a timely manner to user-reported errors.
- Ensuring that the database is adequately backed up and able to be recovered in the event of memory loss.
- Reporting on metrics regarding usage and performance.
- Suggesting changes and improvements for maintenance or protection.
- Regularly liaising with IT project managers and database programmers.
- Designing databases with both front-end and back-end users in mind.

Requirements:

- Bachelor's degree in IT, Computer Sciences or a related field.
- Certification as an MCDBA or MCSD for .NET is advantageous.
- MCSA, Preferably MCSE (Data platform, Business Intelligence)
- 0-1 years' experience in related field

How to Apply:

Please complete the digital form in order for your information to be pulled into our recruitment database. This will allow us to review your application for the Data Analyst position.
